1. From far the drums are calling  
The empire is falling  
Flames burning the hands  
that built our fatherland

2. Hear us, our Lord  
We claim for our right  
To keep our ancient land  
And never fear the fight

3. Always look around  
When hyenas appear  
And try to make you fear  
Your old famliar ground

4. The stars guided our way  
Don't let our history burn  
We're calling our Gods  
And justice to return

**Ref.:**  
Shaman's  
Ringing voice were lulling our  
Cradles  
For centuries our souls were forged of  
Iron  
Our folk went through the bloody fight for  
Freedom  
We'll always be prepared!
